

DECLARATION OF CONFORMITY WITH EU REGULATION 2025/40

General Information

Supplier	ILIP S.r.l.
Registered office	Via Castelfranco, 52 - 40053 Valsamoggia (BO) - Italia
Version	PPWR Declaration 1.0

A. Article Identification

Product description	Products made from recycled PET, available in various shapes and colors
Intended use	Horticultural packaging
Food contact	No
Article dimensions (mm or diameter) and colour	Please refer to the technical datasheet of the relevant item

B. Characteristics

Production technology	Thermoforming
Inks / coatings / adhesives present?	No

C. Packaging Classification (PPWR Art. 3 & Art. 5)

Packaging level	Primary
Packaging category	Sales packaging
Reusable packaging?	No
Single-use plastic packaging?	Yes

D. Hazardous Substances (PPWR Art. 5 & Annex II)

Sum of Pb + Cd + Hg + Cr(VI) $\leq$ 100 mg/kg?	Compliant
Test report reference	26LA20249, 3A Laboratori SRL, Accreditation no. 00114
Per- and polyfluoroalkyl substances (PFAS)	N/A
Are any other substances of concern declared?	The assessment of compliance with the requirements of Article 5 of Regulation (EU) 2025/40 has been carried out on the basis of the company's knowledge of its manufacturing process, the controlled origin of materials sourced from organized collection and recycling schemes, the sorting, washing, grinding, extrusion and thermoforming procedures applied in-house, and the absence of the intentional addition of substances classified as substances of concern under the applicable legislation during the manufacturing process. As of the date of issuance of this declaration, no evidence has been identified that would suggest the intentional presence of substances of concern in quantities that could compromise compliance with the principles laid down in Article 5 of Regulation (EU) 2025/40.

E. Recyclability (PPWR Art. 6 + Design for Recycling criteria, Annex II tables) — Mandatory requirement from 2030

F. Recycled Content in Plastic Packaging (PPWR Art. 7) — Mandatory requirement from 2030

G. Biobased Content in Plastic Packaging (PPWR Art. 8) — Not applicable to this product category

H. Compostable Packaging (PPWR Art. 9) — Not applicable to this product category

I. Packaging Minimisation (PPWR Art. 10 + Annex IV) — Mandatory requirement from 2030

Has a packaging minimisation assessment been carried out? In the absence of specific harmonised guidelines, the packaging minimisation assessment is carried out taking into account the type, characteristics and quantity of the packed product. This assessment falls under the responsibility of the packer, who determines the packaging configuration and dimensions considered suitable to ensure the protection, preservation and marketing of the food product. Secondary and tertiary packaging are designed and used in the minimum quantity necessary to ensure safe handling, transportation and storage.

J. Reuse (PPWR Art. 11, only if reusable) — Not applicable to this product category

K. Labelling and Consumer Information (PPWR Art. 12, 13, 16) — Pending implementing acts

Material identification marking present on the packaging?	Yes, in accordance with Directive 94/62/EC
Separate collection label / pictogram applied?	Yes, in accordance with Directive 94/62/EC
Reuse label (where applicable)?	n/a
Compostability label (where applicable)?	n/a
